What is a "Reflective Citizens" event?

A "Reflective Citizens" event aspires to co-create a reflective space with and for citizens to enable a free sharing of thoughts, feelings, fantasies, dreams, drawings and hypotheses. It seeks to open up minds to a variety of discourses and / or paradigms that may emerge. It also seeks to make visible the uncontrollable unconscious 'beneath the surface' of communities. It does so through mutually respectful conversations and situations.

Reflective Citizens is founded in the psychoanalytic traditions (psychoanalysis, group analysis, group relations, therapeutic communities, social dreaming, listening posts, and operative groups).

Who is this event for?

This event is open to all citizens. It is enhanced by the participation of people from a wide range of diverse backgrounds (this might include our ways of living, our experiences of being citizens, our different socio-political histories and narratives, ethnicity, gender, class, age, occupation, cultures).

How can I register?
